

Project Planning Phase

Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

Date	03/11/2022
Team ID	PNT2022TMID10088
Project Name	Project - A Novel Method for Handwritten Digit Recognition System

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-1	Data Collection	USN-1	I, as a user, am able to gather the data set. from a variety of sources with various written by hand.	10	Low	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-1	Data Preprocessing	USN-2	I can input the data set as a user, handle the missing data, scale the data, and divide the data into train and test groups.	10	Medium	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-2	Model Building	USN-3	As a user, I will get an application with ML model which provides high accuracy of recognized handwritten digit	5	High	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-2	Add CNN layers	USN-4	Creating the model and adding the input, hidden, and output layers to it.	5	High	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-2	Compiling the model	USN-5	With both the training data defined and model defined, it's time to configure the learning process.	2	Medium	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-2	Train & test the model	USN-6	As a user, let us train our model with our image data set	6	Medium	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-2	Save the model	USN-7	The model is saved by the user and connected with an Android or web application to make a prediction.	2	Low	Aditichakraborty Akilesh C Chidhambarasamy Deepika

Sprint-3	Building UI Application	USN-8	As a user, I will upload the handwritten digit image to the application by clicking a upload button.	5	High	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-3	Building UI Application	USN-9	I can understand the specifics of the application's basic operation as a user.	5	Low	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-3	Building UI Application	USN-10	As a user, I can see the predicted / recognized digits in the application.	5	Medium	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-4	Train the model on IBM	USN-11	As a user, I integrate flask/Django with the scoring end point and train the model on IBM.	10	High	Aditichakraborty Akilesh C Chidhambarasamy Deepika
Sprint-4	Cloud Deployment	USN-12	As a user, I can access the web application and make the use of the product fromanywhere.	10	High	Aditichakraborty Akilesh C Chidhambarasamy Deepika
